MY PROFILE:

I'm an energetic, middle-aged social man with a no-nonsense mentality. I am very solution oriented, I have good verbal competence and analytical insight. I'm a real team player, but I'm certainly not going to get out of the way of the role of team leader. I don't have a nine-to-five mentality.

In addition, because of my freelance past I have a great commercial insight.

My expertise is:

- Developing software
- Software testing
- Software deployment
- Educating users
- Project management
- Guiding novice automatists

I have worked as a regular employee at the following companies.
